

U diyaargaroowga Ciribtirida Dhiqleyaasha

Preparations for bedbug treatment

- Baaritaankeenna noo fududeeya idinkoo waxyaalaha goobta yaalaan ka qaado. Booqashadeenna horranteed goobta nadifiya, haseyeeshe aad ha u nadiifina.
- Tidy up, so we are able to make a good inspection. Vacuum or clean – **but don't overdo it!**

- Saabaanyada ha ka qaadinna qolka.
- Don't remove anything from the room.

- Firaashyada sariirta isku duu-duuba.
- Strip the bed ready for inspection.

- Sariirta kor u qaada.
- Lift the bed onto its edge.

- Saabaanyada ka soo durkiya gidaarada .
- Move furniture from the wall.

- Waxaan u baahan nahay in aan qol kasta baarno.
- We need access to all rooms.

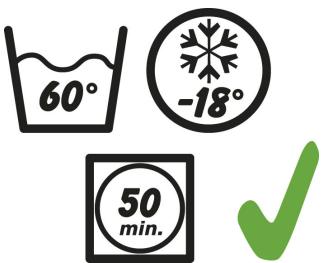

Xasuus muhim ah:

- In hoyga aan la gelin 2 saacadood.
- In carruurta da'dooda 2 sano ka hooseeyso iyo dadyoowga dareenka fudood ka fogaadaan hoyga 24 saacadodo.
- In 5-6 toddobaad nadiifinta kadib aan maskiin lagu haaqin ama biyo lagu tirtirin goobaha dhigleyaasha laga ciribtiray.
- In saabaanada, firaashyada sariirta iwm aan laga qaadin ama la keenin qolalka haddii amar aanan lnaga haysan.

Important to remember:

- Do not enter treated rooms for at least 2 hours.
- Children under 2 or sensitive people are recommended not to enter treated rooms for the first 24 hours.
- Do not wet clean or vacuum for 5 - 6 weeks after the treatment.
- Do not remove or bring in furniture, bedding or other articles until we give the go ahead.

Sida wax dunta ka sameeysan loola dhaqmo
